

First Term coming to a close

The first term of Gloucester U3A is coming to an end. Here is a photo of the participants of the new Balance n Bones class. Balance n Bones focuses on exercising to help us maintain functional movement as we age. Or you can exercise your brain playing French Scrabble (pictured) or a variety of other challenging/interesting courses available each term.

There has been a change in the executive committee at the AGM as we farewelled outgoing treasurer John Read and membership officer Barbara Read who ably and conscientiously completed their term in office. They were thanked for their contribution to the smooth running of U3A over the last three years.

Enrolment day for Term 2 is Monday April 20th. Information on courses that will be available and general information can be obtained by checking our website www.goucesterdistrictU3a.net.au or contact President Lyn Stewart 6558 4148.
